

### **PREMIUM** SERIES

## Decorative Finishes

#### Divine

Inspired by the stunning landscape of sand waves, the beauty of this decorative coating will come to life in a spectacular game of lights and shades. To reduce carbon footprint, Divine is formulated with a special binder made from sustainable biomass as a substitute for fossil raw material.

- Soft metallic touches for intricate visual effects
- Projects velvet-like chromatic effects
- Matches the luxurious wall décor of modern interior

#### Lavato

An innovative reinterpretation of the "washed-out concrete" look, it is natural beauty at its rawest meets artistic twist at its most imaginative.

- Outstanding effects with soft metallic shades
- Smooth pearl-opaque look with strong texturedfeel effect
- Aligns with ground-breaking trends of "concreteness" in architecture

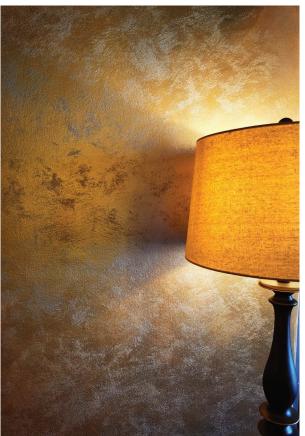

# Concrete Surfaces

#### **TerraSands**

A highly-decorative and versatile textured finish that adds an exotic touch to modernity and class, TerraSands is formulated with a special binder made from sustainable biomass as a substitute for fossil raw material.

- Splashes of metallic patterns and selected quartz aggregates
- Produces premium visual effects

#### Marmorino<sup>RS</sup>

A unique lime-based plaster coat that's inspired by historical elements. Classic in look and even and uniform in texture, it is specially made with natural lime plasters for resilience.

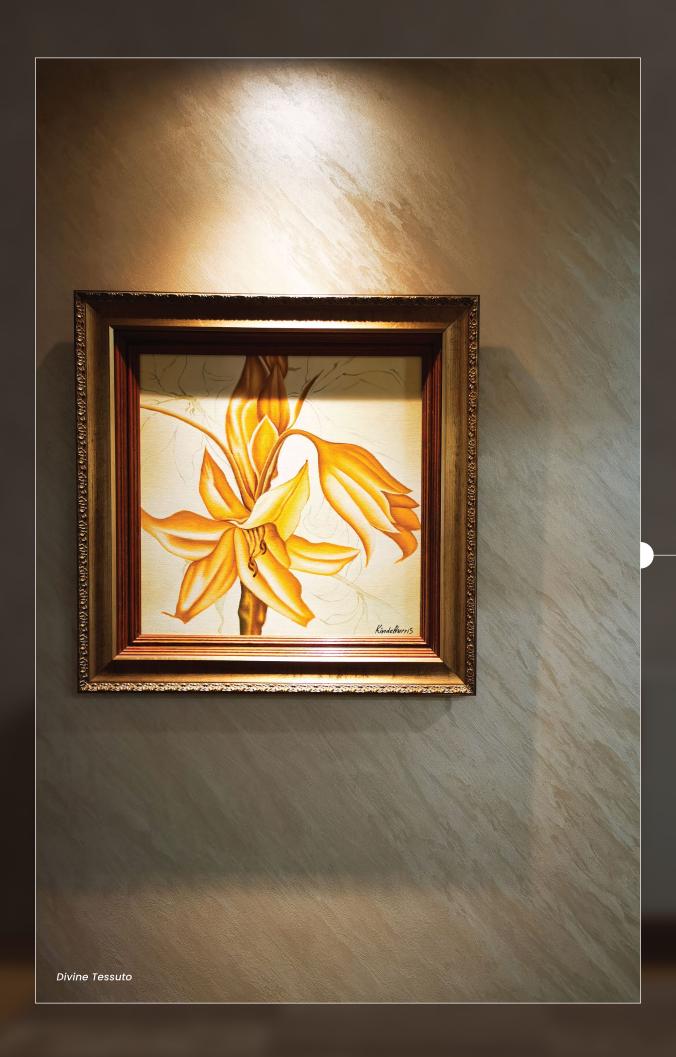

- Made of well-seasoned hydrated lime putty, fine marble powders, and rheologic modifiers
- · Casts a satin effect finish
- "Cloudy" aesthetic effects with soft and vibrant shades

Decorative Finishes &
Concrete Surfaces

Achieving a wall with a premium and quality finish requires multiple layers. Each layer is carefully applied to ensure the durability of the wall. From a range of colours and textures, every wall is customised and created using premium personalised paint to suit your space. Wall Craft ensures to deliver walls that surpasses expectations.
